FOR THE QUARTER ENDED SEPTEMBER 30, 2020

### Dear Shareholders,

The Board is pleased to present condensed interim un-audited financial information of the company for the quarter ended September 30, 2020. For the quarter ended, turnover was PKR 4.42 billion (2019: PKR 5.42 billion) with profit after-tax of PKR 960 million (2019: PKR 1.06 billion) and an Earning Per Share (EPS) of PKR 2.61 (2019: PKR 2.91).

### **Profitability**

During the period ended September 30, 2020, the capacity factor of the plant was 56.69% (2019: 53.43%) with the availability factor of 98.80% (2019: 71.57%). During the period Company dispatched 244,980 MWH (2019: 230,883 MWH) to Power Purchaser.

The long-term loan of the company was for a period of ten (10) years from the Commercial Operations Date (July 21, 2010) and the tariff structure was such that principal payments were being received as part of the revenue during this period. Therefore, our profits for the first ten years were overstated in compliance with the accounting standards. The tariff component of long term loan ceased from July 21, 2020. We anticipate a drop in the profits from current financial year and onwards.

#### Circular Debt

Circular debt has always been a major issue for companies operating in the power sector. Liquidity management remained challenging during the period. As of September 30, 2020, our total receivables from Power Purchaser have amplified to PKR 20.77 billion, out of which PKR 14.26 billion were overdue which includes delayed payment invoices unpaid since August 2014.

The Power Purchaser has consistently failed to make timely payments to the company. The company continues to take up the matter of overdue receivables not only with Power Purchaser but also with the Ministry of Energy (Power Division) through Private Power & Infrastructure Board ('PPIB') by giving notices of default pursuant to provisions of Power Purchase and Implementation Agreements.

### **Pending Issues**

Trade debts include an amount of Rs 966 million relating to capacity purchase price not acknowledged by Power Purchaser. Please refer to note 18 of Annual Financial Statements for the year ended June 30, 2020, for further details.

London Court of International Arbitration ('LCIA') has made an award in favour of the company, where it has entitled the company to claim delayed payment charges on delay payments receivables and the other deductions made by Power Purchaser under the terms

FOR THE QUARTER ENDED SEPTEMBER 30, 2020

of the PPA. Please refer to note 12.1.2 of Annual Financial Statements for the year ended June 30, 2020 for further details.

### **Future Outlook**

On 13 August 2020, the Company in larger national interest signed a Memorandum of Understanding ("MoU") with GoP. The terms of this MoU are subject to the necessary approvals, and thereafter formal agreements will be signed in this respect.

### Acknowledgement

The Directors would also like to express their deep appreciation for the services, loyalty, and effort rendered by the employees of the Company and hope that they will continue to do so in the future.

### 1 The company and its operations

Nishat Chunian Power Limited (the 'company') is a public company limited by shares incorporated in Pakistan on February 23, 2007 under the Companies Ordinance, 1984 (now Companies Act, 2017). The company is a subsidiary of Nishat (Chunian) Limited. The company's ordinary shares are listed on the Pakistan Stock Exchange Limited.

The principal activity of the Company is to build, own, operate and maintain a fuel fired power station having gross capacity of 200 MW and net capacity of 195.722 MW at Jamber Kalan, Tehsil Pattoki, District Kasur, Punjab, Pakistan. The address of the registered office of the Company is 31-Q, Gulberg II, Lahore. The Company has a Power Purchase Agreement ('PPA') with its sole customer, National Transmission and Dispatch Company Limited ('NTDC') for twenty five years which commenced from 21 July 2010.

### 2 Basis of preparation

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- ii) Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended 30 June 2020. These condensed interim financial statements are un-audited.

### 3 Significant accounting policies

The accounting policies and methods of computations adopted for the preparation of these condensed interim financial statements are same as applied in the preparation of the preceding audited annual published financial statements of the Company for the year ended 30 June 2020.

### 4 Critical Accounting Estimates And Judgments

The preparation of these condensed interim financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these condensed interim financial statements, the significant judgments made by the management in applying the Company's accounting policies and key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Company for the year ended 30 June 2020.

### 14 Recognized fair value measurements - Financial instruments

#### (i) Fair value hierarchy

Certain financial assets and financial liabilities are not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the noncurrent receivables, the fair values are also not significantly different to their carrying amounts. Judgements and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company classify its financial instruments into the following three levels. However, as at the reporting date, the Company has no such type of financial instruments which are required to be grouped into these levels. These levels are explained as under:

**Level 1**: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

**Level 2**: The fair value of financial instruments that are not traded in an active market (for example, overthe-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3**: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

### 15 Financial risk management

The Company's financial risk management objectives and policies are consistent with those disclosed in the preceding audited annual published financial statements of the Company for the year ended 30 June 2020.
